

# FINAL FROHMAN INVITATION to Mr. & Mrs. Washington!

This is the FINAL invitation of the

to the good people of Washington.

Last month, in the newspapers of your city and other cities, we began to announce a most unusual and wonderful thing. It was

**THE FROHMAN PLAN** for sharing some of the vast profits of the screen with the very people who have been responsible for the great success of the motion picture business, namely, the men and women who pay their money in at the box offices day after day and year after year.

And, oh, the responses we have had! Newsboys, wage earners, salaried employees, society women, capitalists, presidents of business corporations, people in every walk of life—thousands of them—have flooded our offices with requests for full information about THE FROHMAN PLAN.

And what is the result? Well, it is what you might call a triumph in popular financing, with many movie fans as happy as they can be at the fact that they are now part-owners of a long-established and fast-growing motion picture company whose photoplays are known to the entire amusement-loving public throughout the world.

And the Frohman Amusement Corporation is in turn proud of the fact that among its owners and profit-takers are

Bankers, Capitalists, Builders, Government Employees, Presidents of Corporations, Waiters, Artists, Principals of Schools, Shop Foremen, Store Clerks, Housewives, Electricians, Engineers, Mechanics, Tailors, Textile Workers, Shoe Manufacturers, Actors, Stenographers, Weavers, Accountants, Advertising Men, Office Managers, Physicians, Shipyard Workers, Pressmen, U. S. Army Officers, Planets, Core and Spence Clerks, Authors, Hospital Superintendents, and many others.

After reading the above you may be glad to find out that YOU are not too late to participate in the cash benefits of the Frohman Plan, even though this is the FINAL invitation.

You are still in time (if you act IMMEDIATELY) to get full information, including the Book explaining THE FROHMAN PLAN and a list of Frohman Productions and 24 half-tone portraits of Frohman Stars, all without cost or obligation.

All you have to do (when you finish reading this LAST column of invitation) is to send your name and address to

**FROHMAN  
AMUSEMENT  
CORPORATION**

NEW YORK

## MAN-FLOWER LOVERS VISIT AMARYLLIS SHOW

Throngs at Greenhouses at 14th and B Streets Guests of Mrs. Meredith.

More than 1,000 flower lovers visited the amaryllis show of the Department of Agriculture in the greenhouses at 14th and B streets today. The show was thrown open to the public at 9 o'clock this morning and will remain open from 9 a.m. until 5 p.m. daily until Sunday night.

All day yesterday members of the cabinet, congressional and diplomatic circles thronged the greenhouses as guests of Mrs. E. T. Meredith, wife of the new Secretary of Agriculture, Mrs. W. A. Taylor and Mrs. Kari T. Keller, wives of the chief and assistant chief of the bureau of plant industry, assisted in receiving these guests.

Mrs. Woodrow Wilson, who was unable to attend the private showing yesterday, but intends to visit the exhibition before Sunday.

All of the guests, including a number of expert botanists, marvel at the number of amaryllis bulbs which Supt. Byrnes, who raised them from seed, has been able to force into bloom at the same time. This breaks all records for the number and size of blooms. It is the only exhibition of amaryllis to be seen anywhere in this country, the experts say. There are 1,500 plants in bloom in the show, selected from 2,500 seedlings. The coloring is unusually vivid and gorgeous.

Senator and Mrs. Overman were among the earliest visitors at the amaryllis show, as they were leaving the city. Senator Overman has seen every one of the Department of Agriculture shows and said: "I would believe it possible to make such a showing of tropical blooms in Washington at this season."

Teachers in all the schools have been invited to bring classes to the department greenhouses, when Supt. Byrnes will furnish botanists to explain the plants to the children.

**ARMY MEN GIVE FETE AT FORT WASHINGTON**

Athletic and Transportation Show Feature—Many Guests View Events.

An athletic and transportation show is being held at Fort Washington, on the Potomac river, by Army officers today.

Motor transportation furnished the nucleus for a military fete, demonstrations and exhibitions of motorized transportation units predominating. A large group of specially invited guests, including Army officers, their families and scores of citizens, formed the gallery which viewed the event.

Luncheon was served to guests at officers' mess of the coast defense headquarters at the fort.

Commencing at 3:30, the motor transportation exhibits and demonstrations were followed by a series of athletic events. During the afternoon riding and driving events are being held. Pastimes include polo, basketball and non-commissioned officers' and enlisted men.

The automobile test included touring cars, delivery trucks and motor cycles, the judging being made on general grounds and on technical operation. Tests for horse-drawn vehicles included examination of both horses and vehicles, personnel and equipment.

The horse show opened with a spectacular parade, followed by a contest of speed for four line teams. In the parade, including entries from Fort Washington and Fort Hunt, then the horse show, followed by wagonettes, buckboards, dump carts and delivery wagons. In the riding events, there was a tug of war, 100-yard dash, relay races and other field sports.

The detail in charge of the fete was Maj. Gen. Capt. Robert E. M. Goolrick, C. A. C., in charge of grounds; First Lieut. James G. C. Salyers, C. A. A.; Second Lieut. Charles A. Davis, C. A. S., second assistant.

**SENATOR HARDING SPEAKS.**

Tells Lumber Dealers Industrial Peace and Production Essential.

Senator Warren G. Harding, candidate for the republican nomination for President, before leaving last night for his Indiana home, where he will address the republicans of the Hoosier state tomorrow, was the principal speaker at the dinner of the Lumber Dealers, who are in convention here.

"The most essential thing in the world today is industrial peace and efficient production," said Senator Harding. "It is the story of man's martyrdom and developing civilization that war has ever left new conditions amid the ruins of waste and depleted treasuries and emptied storehouses. No recovery was ever recorded except that which came through toil and denial and sacrifice and resolute thrift."

"We have come to understand there is a human side to industry. Men are no longer mere cogs in the big industrial machines, but are beings with soul and aspirations which must be understood."

"Workers must know the trials, griefs, hardships and sometimes the distresses of those they employ. When each get the viewpoint of the other and they fully understand, it is easy to wipe out all threatening differences."

**SCHOOL LUNCH SUCCESSFUL.**

Miniature Restaurant in Benning School Cited as Example.

Success has marked the establishment of a small lunchroom in the Benning School, where children are served hot foods at cost, domestic science teachers at the school reported today to Assistant Supt. Stephen E. Kramer. The serving of hot lunches to the children was started in the Benning School more than a month ago. A similar plan has since been adopted at the Johnson-Powell schools by the Mothers' Club.

In their report to the assistant superintendent the domestic science teachers state that the pupils do the marketing every morning, and assist in the domestic science teachers in the domestic science classes.

Plans are being made by the District Congress of Mothers and Parent-Teacher Associations to put a lunchroom in every public school building in the District as soon as the necessary funds are raised and the approval of the board of education obtained.

**Army Death Sentence Commuted.**

The President has commuted to imprisonment for life the sentence of death by hanging imposed by court-martial in the case of Private Alex Bradley, 20th Engineers, convicted of the charge of having killed Sgt. Lloyd Pendergraft, 25th Engineers, at Vignoux, France, May 21, 1919.

Justice Gould Returns to Duty.

Justice Ashley M. Gould has resumed his duties on the bench of Criminal Division 1 after an absence of two months. The justice sustained a fall about the middle of January and has been confined to his home.

## MR. COLBY URGES PUBLICITY. Wants Evidence on Subject of His Confirmation Made Public.

Secretary Colby has written a letter to Senator Lodge, chairman of the Senate foreign relations committee, asking that the evidence taken by the committee on the subject of his confirmation be made public. If it is accorded with the usual practice. The text of the letter, as given out at the State Department, follows:

"Will you permit me to express to you my appreciation of the very courteous reception I had from you and the members of your committee on the occasion of my recent appearance before the committee? I am hopeful that a way may be found to lift the secrecy which surrounds the evidence taken by the committee on the subject of my confirmation. While reluctant to make a request that may in any degree conflict with the usual practice of the committee, or anticipate its action, it would be very much appreciated by me if the whole record were given complete publicity."

**Soldiers' Home Inmate a Suicide.**

Samuel S. Wentworth, fifty-two years old, inmate and former employee of the Soldiers' Home, yesterday afternoon ended his life in a bath room at that institution by cutting his throat with a razor. Corporal Nevitt gave a certificate of suicide. Wentworth was a native of New York.

## DOG DISCOVERS FIRE, HAS POLICEMAN GIVE ALARM

NEW YORK, March 25.—Out for a stroll early yesterday, Rex, veteran mascot of engine company No. 4, discovered smoke pouring from a restaurant in Maiden Lane. He hunted up a policeman, led him to the fire by barking, and capered with satisfaction as his company "rolled" swiftly to the blaze. The fire was extinguished with slight loss.

Rex has lived at No. 4 house for ten years. He was badly burned while assisting at the Equitable fire several years ago, but refused to become "fire shy" because of his experience.

Three Types of Tires for Three Kinds of Use  
YOU don't want a truck motor in a touring car; you use a different oil in the cylinders than in the transmission.

Different conditions must be met differently. That is why Lee builds three types of tires for three kinds of uses. The right type for your purpose is the one built especially for that use.

Consult us on tires. We'll survey the conditions your tires must meet and prescribe the Lee Tire that will serve you best—the Lee Tire that will give you maximum mileage and comfort.
